Tricker's KOROSEAL* LILY POOL

Easily Set Up • No Framework • Easily Taken Down

This portable lily pool can be set up on grass or any level surface — of course in full sun for best growth of water plants. Partially sunk in the ground it presents an attractive appearance against almost any background. A few puffs of air blows up the rim and when filled the water forms the shape. When filled it is approximately 9 inches deep, 55 inches in diameter and holds 75 gallons. The pool in color is translucent green and the seams being electronically welded are permanently water tight. The KOROSEAL* pool is durable and flexible and is resistant to abrasion, grease, chemicals and sunlight. Full instructions for installing are packed with each pool.

The 55 inch pool is Priced at

\$9.95

(by parcel post, add 50c)

We can also furnish a larger
KOROSEAL* Lily Pool, 70 inches
in diameter for

\$14.95

(by parcel post, add 70c)

TRICKER'S *Complete Plant Collection*

PLANTING INSTRUCTIONS

For the water lily we recommend a box 14 inches square and 4 inches deep. For the five shallow water and bog plants we suggest a box 6 inches wide, 14 inches long and 6 inches deep. For the two oxygenating plants a shallow flower pot 4 or 5 inches in diameter. Use good topsoil, enriched.

For your convenience we offer the above mentioned boxes for \$1.25 each.

If you desire gold fish this pool will accommodate nicely our special collection 30A, consisting of 15 assorted fancy gold fish, 2 to 2½ inches long. Price, including shipping can, \$2.75.
